

SHIVANI B

COMPUTER SCIENCE ENGINEER

Podanur, Coimbatore, Tamil Nadu · +91 7845799698 · shivanibalasubramanian08@gmail.com · [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in full-stack development, artificial intelligence, machine learning, and UI/UX design. Proficient in building AI-powered desktop and web applications using Python, JavaScript, React, and Next.js, and in developing ML models with Scikit-learn, XGBoost, and deep learning frameworks. Experienced with REST APIs, Spring Boot, blockchain integration, and cloud-deployable apps. Strong foundation in data structures, algorithms, and problem-solving with a collaborative, deadline-driven approach.

PROJECTS & TECHNICAL WORK

- **BrainDump - AI-Powered Desktop Notes App** | Electron.js, Node.js, SQL.js, Google Gemini API — Built a Windows desktop app integrated with Google Gemini API for real-time auto-naming, tagging, summarisation, and semantic search of notes; added smart reminders with native desktop notifications and packaged the app as a standalone executable with a custom dark UI.
- **Zomato Cuisine Clustering & Recommendation System** | Python, Scikit-learn, Streamlit — Built an AI recommendation engine using K-Means clustering to group Zomato restaurants by cuisine similarity; deployed as an interactive Streamlit web app with personalised suggestions based on user preference.
- **Face Recognition Attendance System** | Python, OpenCV, Flask, Tkinter, ResNet — Developed a real-time facial recognition attendance system using 128-dimensional ResNet encodings via live webcam; built Tkinter desktop and Flask web dashboards with analytics, CSV export, and per-day duplicate prevention.
- **Blockchain-Based Fake Account Detection** | Python, XGBoost, Random Forest, Solidity, Ethereum — Engineered an ensemble of 5 ML models (Random Forest, XGBoost, Neural Network, Gradient Boosting, Logistic Regression) on 21,800 records to detect fake accounts with 0-100 risk scores; stored SHA-256 hashed investigation reports on a private Ethereum blockchain via Solidity smart contracts.
- **Task Manager - Fullstack SaaS Web App** | Next.js, TypeScript, Tailwind CSS, MongoDB Atlas, NextAuth.js — Developed a fullstack SaaS task manager with JWT-based authentication, task priority levels, due dates, filters, dark mode, animated UI, and browser notifications for overdue tasks; architected using Next.js API Routes and MongoDB Atlas.

SKILLS

Languages & Frameworks: C++ · C · Python · SQL · JavaScript · TypeScript · React · Next.js · HTML/CSS · Spring Boot · Java · Solidity

Tools & Platforms: Figma · Power BI · GitHub · Jupyter Notebook · Google Colab · VS Code · IntelliJ IDEA · MySQL Workbench · Ganache · Streamlit · Electron.js · MongoDB Atlas

Core CS: DSA · DBMS · OOP · REST APIs · Machine Learning · Deep Learning · NLP · Computer Vision · Clustering · Ensemble Methods · Generative AI · Blockchain · UI/UX Design

Soft Skills: Critical Thinking · Teamwork & Leadership · Public Speaking · Time Management

EDUCATION

BE Computer Science and Engineering

Sri Krishna College of Technology, Coimbatore

2023 – Present

Higher Secondary (12th Grade)

St. Joseph Matriculation Higher Secondary School, Coimbatore

2009 – 2023

ACHIEVEMENTS & ACTIVITIES

- Earned NPTEL, Coursera, and Infosys Springboard certifications in Java, C/C++, Python, Full-Stack Development, Data Analytics, and Cloud Computing.
- Selected for the college-level Smart India Hackathon (SIH) and contributed to solution design and development.
- Presented research papers at international conferences, showcasing technical and communication skills.
- Developed full-stack web applications using Java, Spring Boot, React, MySQL, REST APIs, HTML, CSS, and JavaScript.
- Maintains an active GitHub profile with project repositories and open-source contributions.
- Applied DSA, OOP, and SQL concepts through coding challenges, academic projects, and hackathons.
- Participated in coding clubs, technical events, and leadership activities, demonstrating teamwork and organizational skills.
