Shivani B

Podanur , Coimbatore, Tamil Nadu , India• 7845799698• shivanibalasubramanian08@gmail.com

Computer Science undergraduate skilled in application development, UI/UX design, and data analysis, with experience in building responsive web interfaces and REST API–based backend services. Hands-on with databases and Power BI for data visualization and insights, and strong in programming, data structures, and problem-solving. Self-motivated team player with leadership and time management skills, eager to contribute to software engineering, UI/UX, or data analytics roles.

Experience

- Developed a full-stack web application using Spring Boot and PostgreSQL for the backend and React for the frontend.
- Implemented RESTful APIs and integrated database operations to enable smooth frontend and backend communication.
- Performed data cleaning and exploratory data analysis on datasets using Python and generated insights and visualizations using Power BI.
- Designed and developed responsive web interfaces using HTML, CSS, and React to improve usability and navigation.
- Created wireframes, user flows, and high-fidelity UI mockups using Figma with a focus on usability and accessibility principles.
- Collaborated with peers on academic and hackathon projects to design workflows and develop functional application modules within deadlines.

Skills

TECHNICAL SKILLS

Programming & Development

- C++: OOP, Memory Management, Competitive Programming
- C: System Programming, Embedded Systems
- Python: Scripting, Automation, Basics of AI/ML
- Database Management (DBMS): SQL, Database Design
- Computer Networks: Fundamentals of Networking

Soft Skills

- Critical Thinking & Problem-Solving
- Teamwork & Leadership
- Public Speaking & Communication
- Project Management & Time Management

Education

Sri Krishna College of Technology, BE Computer Science and Engineering, 2023–2027

St. Joseph Matriculation Higher Secondary School, Kindergarten–12th Grade, 2009–2023

Student And Campus Activities

- Presented research papers at international conferences, demonstrating research and public speaking skills.
- Selected at the college level for Smart India Hackathon and contributed to solution development.
- Completed C and C++ programming certifications and multiple technical courses on Infosys Springboard.
- Actively volunteered in college events, strengthening teamwork, leadership, and organizational skills.
- Collaborated on team projects using data structures and object-oriented programming, including debugging and optimization.
